Pokédex Lore

Mewtwo is a Pokémon created by scientists after years of horrific gene-splicing and DNA-engineering experiments using Mew's genetic code. It is often considered the most powerful Pokémon ever created. Unlike most Pokémon, Mewtwo was born with a savage heart and no emotions — yet deep contemplation of its own existence has slowly given rise to a fierce sense of identity. Mewtwo can Mega Evolve into two distinct forms: Mega Mewtwo X and Mega Mewtwo Y, boosting its already terrifying stats.

#249 LUGIA | Generation II | Johto

Pokédex Lore

Lugia is the master of the seas and the guardian of the ocean. It is so powerful that even a light fluttering of its wings can blow apart houses. As a result, it chooses to sleep deep underwater, emerging only on rare occasions. A legend says it can command the three legendary birds — Articuno, Zapdos, and Moltres — and that only Lugia can quell their endless battles for dominance of the seas.

#384 RAYQUAZA | Generation III | Hoenn

Ability	Air Lock / Delta Stream (Mega)	Sig. Move	Dragon Ascent

Pokédex Lore

Rayquaza lives in the ozone layer, far above the clouds, and has never been seen from the ground. It feeds on meteoroids in the stratosphere. Rayquaza is the only Pokémon capable of Mega Evolution without holding a Mega Stone — it needs only to know Dragon Ascent. Its ancient purpose is to stop the battle between Kyogre and Groudon. Mega Rayquaza's total base stat of 780 makes it one of the most powerful Pokémon in existence.

#483 DIALGA | Generation IV | Sinnoh

Stat	Value	Stat	Value

Sp. Def	100	Speed	90
Total	680

Pokédex Lore

Dialga is the Temporal Pokémon and the deity of time in Sinnoh mythology. According to legend, time began to flow when Dialga was born. It has the power to control time itself — able to speed up, slow, or reverse the flow of time at will. It appears in Sinnoh mythology as the master of time alongside Palkia (space) and Giratina (ruler of the Distortion World).

#718 ZYGARDE | Generation VI | Kalos

Stat	Value	Stat	Value
HP	108	Attack	100

Type	Dragon / Ground	Region	Kalos
Ability	Aura Break / Power Construct	Sig. Move	Land's Wrath / Core Enforcer

Pokédex Lore

Zygarde is the Order Pokémon that watches over the ecosystem from a cave in Kalos. Its various formes reflect how many Zygarde Cells have combined: 10% Forme resembles a canine, 50% Forme is serpentine, and Complete Forme is a towering giant. With Power Construct, its HP doubles when it drops to 50% in battle. Zygarde represents order and balance, acting as a counterweight to Xerneas (life) and Yveltal (destruction).

#890 ETERNATUS | Generation VIII | Galar

Stat	Value	Stat	Value
HP	140	Attack	85
Defense	95	Sp. Atk	145
Sp. Def	95	Speed	130
Total	690		
Type	Poison / Dragon	Region	Galar
Ability	Pressure	Sig. Move	Eternabeam

Pokédex Lore

Eternatus is an extraterrestrial Pokémon that arrived on Earth inside a meteorite approximately 20,000 years ago. It is the source of the Darkest Day — a catastrophic event in Galar's ancient past when it absorbed all regional energy, causing Pokémon to Dynamax uncontrollably. In its Eternamax form (exclusive to Max Raid battles), it has a staggering base stat total of 1,125 — the highest of any Pokémon ever recorded.
