Offer Letter to Manas Dani

January 22, 2026

Dear Faculty Assistance in Data Science (FADS) Program Coordinators:

This letter serves as official confirmation that **Manas Dani** has been offered the position of **Fellowship Research Assistant** in the **Kelley School of Business** at **Indiana University Bloomington**, located at **1275 E 10th St, Bloomington, IN 47405**.

The appointment will be for **10 hours per week, beginning Monday, January 12, 2026 and ending Friday, May 8, 2026**. It is expected that Manas Dani will work a total of 150 hours during the 16-week Spring Semester. All work will be performed remotely online.

Manas Dani's duties and responsibilities will pertain to the system development of a data extraction and cleaning tool aimed at allowing users to package their local data into a clean, structured, reusable format for uploading onto an online marketplace. Specifically, his responsibilities include:

- Developing an interface that allows users to provide input in the form of a website URL, PDF, document, or text.
- Creating a tool that validates user input and collects source content.
- Adding an extraction feature to clean and remove noise from source content, including navigation elements, ads, or duplicated text.
- Developing a tool to normalize, chunk, and label cleaned content with relevant metadata, entities, and schemas generated alongside it.
- The final output from the development of these tools should be packaged, structured artifacts (such as JSON, JSON-LD, or Markdown) that can be reused later by local LLM tools, RAG pipelines, or eventually shared through theLLMStore as reusable intelligence assets.

These duties directly utilize the advanced knowledge and skills **Manas Dani** is acquiring during the **Master in Data Science** graduate program. Manas will be applying core concepts from the field of data and computer science including LLM development, machine learning, and data analytics to a real-world project.

If you have any questions or require further information regarding this offer or Manas Dani's employment, please do not hesitate to contact me at nichb15@iu.edu or call me at (703) 789-7212.

Sincerely,

Nicholas J. Brown
